Story Title *

HC-287: Dynamic Queue List of AHC

Description

As a ward doctor, I want the dynamic queue list of AHC to refresh automatically so I can attend to high-priority patients first.

Acceptance Criteria *

Given the doctor dashboard is open, when a patient status changes in the system, then the queue list should update automatically within 30 seconds.
Given the doctor wants to view only critical patients, when the Emergency filter is applied, then only patients with critical priority should be visible.

Additional Info

Priority: Highest | Jira status: In Progress

TEST CASE ID	TITLE	CATEGORY	EXPECTED RESULT
TC-001	Verify queue list auto-refreshes within 30 seconds after patient status change	Positive	The queue list reflects the status change and updates automatically within 30 seconds
TC-002	Verify Emergency filter displays only critical priority patients	Positive	Only patients with priority set to 'Critical' are shown in the queue list
TC-003	Queue list does not refresh when no patient status changes	Negative	The queue list remains unchanged and no refresh occurs
TC-004	Emergency filter applied when no critical patients exist	Negative	The queue list displays a message such as 'No critical patients found' or shows an empty list
TC-005	Verify auto-refresh occurs exactly at the 30-second threshold	Edge	The queue list updates at or before 10 + 30 seconds
TC-006	Multiple patient status changes within 30 seconds are reflected correctly	Edge	All three status changes are reflected in the queue list within 30 seconds of each change
